MARLEY

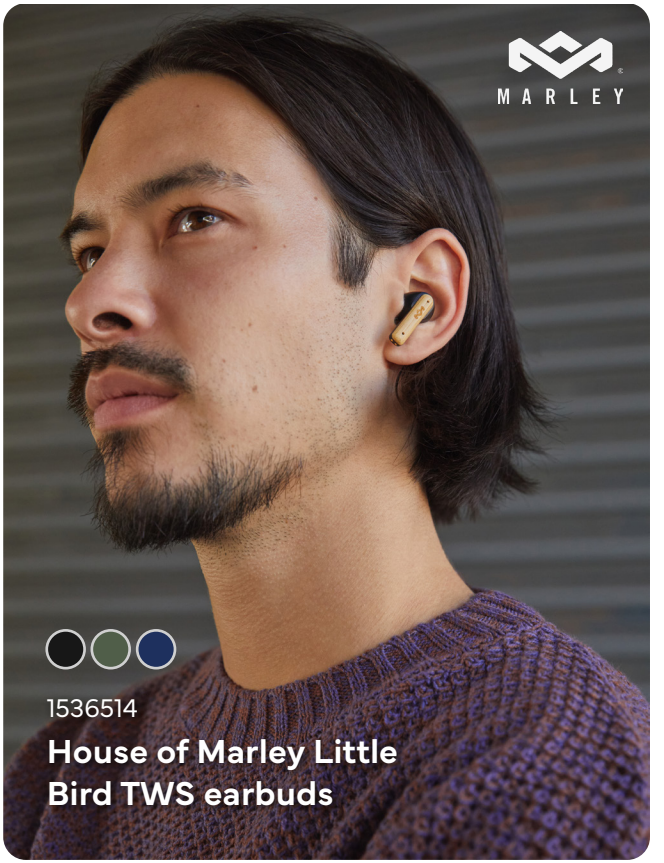

Superior Sound. Sustainable Crafted.

“Inspired by Bob Marley’s love of music and his respect for people and nature, House of Marley develops high-quality audio products that combine sound quality and sustainability. From headphones and speakers to earphones: every product is designed to deliver the distinctive Marley Signature Sound.

When developing its products, the brand deliberately chooses sustainable materials, such as natural bamboo, FSC™-certified wood, REWIND™ fabric and REGRIND™ silicone. For example, REWIND™ fabric consists of a blend of recycled organic cotton, hemp and PET, whilst REGRIND™ silicone is made from reused silicone that would otherwise go to waste. The packaging is also completely plastic-free and made from 100% recyclable paper fibres.
House of Marley proves that excellent audio performance and a conscious lifestyle can go hand in hand.
